

Want to help clean up the beach?

Which equipment do you need?

You can get bags and gloves here to go beach cleaning! If you can, please return the gloves so that more people can use them!

What should I pick up?

It's good to pick up all litter that you can find, but above all any plastic as that poses the biggest threat for nature.

How do you know which beach needs cleaning?

Ask us or look in the Beach Cleaning Map app.

Download the app here:

App store

Google Play

Where do I leave full bags?

If you can't take the bags with you yourself, mark "Hämtbehov" in the Beach Cleaning Map. The garbage will then be picked up by professional beach cleaners as soon as they can. Be sure to place the bags in an easily accessible place then, and also make sure they are tied tightly. Feel free to put something heavy on top of them (such as driftwood or a stone) so that they don't get blown away by the wind.

A collaboration between the West Coast Trust, Keep Sweden Tidy, The West Sweden Tourist Board and the municipalities of Bohuslän through Ett Enat Bohuslän
