

## Walks

### 1. Dyröleden GPS 57.92877, 11.60066

Steps, boardwalks, handrails, tables and benches in this area of cliffs and ravines enable an extra special walking experience around Dyrön. Bathing places are also to be found en route. Rocky terrain. The terrain is rocky but aids such as steps and handrails have been provided to facilitate getting around. Length 5 km, which takes about 2 hours.

Dyrön

### 2. Härön GPS 58.01590, 11.51316

Nature Reserve. The easiest walk is from the ferry station via the asphalted, no-cars-guaranteed road north to Rösseberget or south to Stavundsholmen. You are taken among the characteristic old houses and to viewpoints across the sound with its throng of passing boats throughout the summer. Other walks on the island are a little more demanding and not suitable for prams etc. Boots could be called for during the spring and autumn. Maps are for sale on the ferry. Lengths from 2 km to 10 km, taking between 30 minutes and 4 hours.

Orchids, Härön

### 3. Sundsby GPS 58.07062, 11.68902

Nature Reserve. There are a variety of walks at Sundsby Säteri which present the walker with some lovely views. The walks are graded according to difficulty. Sundsbyleden is 4.4 km long over easy/not quite so easy terrain. The Solklinten and grottorna (caves) trail is 1 km long plus 0.5 km along Sundsbyleden.

The path over the rock is steep and difficult. Krossenleden is 1.2 km plus 0.5 km along Sundsbyleden over not quite so easy terrain.

Ivers skogsromanad is 1.7 km over generally easy terrain. Children's walk.

Caves at Sundsby

### 4. Säbyleden GPS 58.02019, 11.59972

Nature Reserve. Säbyleden is a loop walk. The description follows the way round in a clockwise direction setting out southwards from Säbygården. There are several stretches. More information is available at the location. The area is a nature reserve. The way consists of both roads and trails. It takes you all the way out onto Säby ö, where there is a stenstuga (stone cottage). The loop is 7 km long.

Säby ö

### 5. Toftenäs GPS 57.999302, 11.543737

Nature Reserve. The walk starts in Toftenäs, Skärhamn, where there is an information board. The description of the way described below is based on going north to begin with. Follow the orange markings on posts and rocks. The marks are rather spaced, but since the trail is walked often there is little risk of going the wrong way. In some places the trail can be rather wet in rainy weather or after snow has melted, but if the correct precautions are taken this presents no problem. There are animals grazing in the meadows.

#### Cycle trail

Intended to provide cyclists with varied and interesting routes. The trails can be old roads, village roads, surfaced trails or well-worn paths. The surface may be asphalt, compressed gravel or other material fit for cycling on, and they are not kept in order during the winter.

#### Cycle track

Cycle tracks also serve as pedestrian paths and are asphalted. They run alongside roads. They have been built by the Swedish Transport Administration and are kept in order during the winter.

### 6. Tuveslätt/Toskärr

GPS 57.94420, 11.59650

Nature Reserve. Make your own way through this area of varying nature, rare flora, meadows, ponds and a skalbank (shell bank) etc. People have occupied Tuveslätt since time immemorial. There was a stone age settlement here 10 000 years ago. Grazing animals in the area between June and September.

### 7. Tolleby

GPS 57.97420, 11.60182

The trail around Bö Tjärn will remind you of hill walking. Visit Torpet, the café cottage, which is open every Sunday between 11:00 and 15:00, October to May. Torpet lies right next to Bö Tjärn, where you can paddle and bathe. Häle mosse, with its rich bird life, is on the opposite side of the lake.

### 8. Åseby

GPS 58.00496, 11.67857

The trail starts to the east of the stables, along the road. Josefina Pettersson owned the farm and land until 1965, when it was bought by Tjörn municipality. She sold it on condition that the wooded areas, where the trail is, be a recreational area for the general public and be upheld so that it is easy and pleasant to walk around. The trail starts at a point with Gunneby kile (bay) on one side and the forest on the other and is maintained as requested. Length 2 km.

### 9. Vetteberget

GPS 57.95787, 11.59227

Vetteberget at 116 metres above sea level is Tjörn's highest point. The trail to the top is well marked and makes the hill relatively easy to climb. The view from there makes the effort worthwhile. Here you will also find Bohuslän's largest stone mound dating from the Bronze Age. The ascent is 2 km long.

### 10. Tjörnehuvud

GPS 57.93524, 11.58381

This path takes you up to Tjörn's most spectacular viewpoint over the North Sea. The view takes in Marstrand and Marstrandsfjorden, Åstol, Dyrön, Tjörnekalv and Klädesholmen. It is steep in places, passes over rocks and there are steps at some points. It also passes over several former 2nd world war defence installations. End your walk down on the landing stage by the channel.

## Allemandsrätten

### National Parks and Access to the Countryside Act

Whether you walk, kayak or just sit on a rock and ponder, you are taking advantage of Allemandsrätten. This unique act enables us all to move about freely in the countryside. But it implies consideration for nature and animal life as well as for the land owners and other visitors. We may not disturb and we may not destroy. Allemandsrätt is restricted in some protected areas. There are usually notice boards giving the regulations that apply for the area. Animals often graze freely in some natural landscapes. It is important not to disturb them and to close gates behind you.

Read about Allemandsrätten on the Swedish Environmental Protection Agency website: [www.naturvardsverket.se](http://www.naturvardsverket.se)

For your safety there are emergency points along the hiking trails on Dyrön and Sundsby.

## Tjörn by bike!

There are direction signs on all the cycle tracks and trails.

### 11. From Rönnäng via Bleket

A possible route would be to start close to Rönnängs gård. From here you can walk up to Tjörn's newest nature reserve, Tuveslätts. The cycle tour then takes you down through Rönnäng, past Klädesholmen's churchyard, which lies behind Bleket school, and on through Bleket and Aröd.

### 12. Small species-rich lakes and water-mill Tolleby to Dyreby

The route then continues along the old road towards the water works at Tolleby, past Bö tjärn (lake), surrounded by woods and meadows, towards Krossekärr (at Hannagården). There are many pleasant places by the lakes to take a break and investigate the floral rarities. Stop off at Håle by the water mill. When you come to Krossekärr, take the new cycle track, which is to say the old road, in the direction of Hällebäck and then turn off left towards Dyreby. There is a splendid view towards Sibräcka from here.

### 13. A walk at Säby or continue towards Röra

The trail continues through a quiet wooded area and emerges at Säby. Here you have the choice of either leaving the trail, heading out west and then resting your bike while you take a walk out to Säby ö, or cycling on towards Brog and out on to the 727 road. After a short stretch along the road, the trail recommences to Surdal via Valsäng holiday cottage area. From here it takes you to Röra.

### 14. Burial ground and stone carvings

The left branch in the trail at Brog leads off in the direction of Sältebo with its beautiful windswept oaks. You continue over a watercourse and through Gregård, a shoreline settlement which was documented as far back as the end of the 17th century.

The route then takes you along Hällenevägen towards Pilane burial ground, a top spot for a picnic! A few hundred metres further, where the road from Pilane meets road 727, are the Basteröd stone carvings depicting a fleet of 15 ships, one of which is all of 157 cm long. From here proceed along the road towards Långekärr and on to Elin Sundberg's house in Sunna. You can also get here via the marked trail which goes off to the left just before Pilane by heading from Sältebo through the holiday cottage area in the direction of Kyrkesund.

Stone carvings at Basteröd.

### 15. Historic Stockevik and Norvikstrand

If, at Aröd, you choose to take the cycle track to Skärhamn instead of the trail towards Tolleby, you will come to several places of interest with information boards: Stockevik with references back to the 16th century. Gården Röa, the home of Lars Billström at the beginning of the 19th century (he later donated his fortune to Billströmska Folkhögskolan) and Nordvikstrand, which started life as a shoreline settlement in the 17th century.

## Sights

Skärhamn by foot.

View from Hamneberget, Skärhamn.

### 16. Skärhamn by foot – viewpoint

Make your way through the old village and on up to Hamneberget by the water tower to take in the fantastic view over the sea. In the old village, wander among the characteristic buildings that have served as train-oil factories, shops, post office, bakers etc.

### 17. Sundsby säteri

There are many things, both natural and cultural, to discover at Sundsby Säteri. The area contains several walking trails as well as a beautiful park and pond. Sundsby has a fascinating history, much of which is related through the legends surrounding it.

### 18. Pilane burial ground

One of the largest ancient burial grounds in Bohuslän, with home 90 graves marked by grave stones, stone mounds and stone circles. It is easily accessible, also for disabled persons and those with prams etc. Feel free to take your picnic basket with you. Since the summer of 2007, sculpture has been exhibited here; sculptors from far and wide have installed their works, many of which have weighed several tonnes. There is an entry fee to the sculpture park.

## Bathing places on Tjörn

### 19. Almön

Has a sandy beach, jetties, diving tower and toilets.

Klädesholmen

### 20. Bleket

Has a small sandy beach, rocks, jetty, diving tower, spring-board and toilet. Swimming school.

Gråskär

### 21. Dyrön

The bathing place lies 300 m from the north harbour. It has a small sandy beach, rocks and jetties.

Skärhamn

### 22. Gunneby

Here there is a jetty, pontoon and toilet. Swimming school.

Stockevik

### 23. Gråskär, Skärhamn

Has a sandy beach, rocks, jetty, diving tower and toilets. Swimming school. Partly availability adapted with a ramp into the water and accessible restroom.

Stockevik

### 24. Klädesholmen

Has a small sandy beach, rocks, jetty, diving tower and toilets. Swimming school.

Kårevik

### 25. Kårevik, Rönnäng

Here you will find a sandy beach, rocks, jetties, diving tower, spring-board. There is also an accessible toilet. Swimming school.

Bleket

### 26. Lilla Askerön

Has rocks, a jetty and toilets. Swimming school.

Kårevik

### 27. Linneviken, Kyrkesund

Here there is a shallow sandy beach, jetty; toilets for disabled persons. Swimming school.

Röra

### 28. Låka, Höviksnäs

Has a small sandy beach, rocks, jetty, diving tower and toilets. There is also an accessible toilet. Swimming school.

Astol

### 29. Röra

Here you will find a jetty, pontoon, rocks and toilet. Ample parking space.

### 30. Stockevik

Has rocks, jetty, diving tower, spring-board and toilet. Swimming school.

### 31. Tubbeviken, Skärhamn

Has a small sandy beach, rocks, diving tower, spring-board and toilet.

### 32. Åstol

Here you will find a natural bathing pool and lagoon. There is also an accessible toilet.
